IMAGINE WHAT THIS FLOOR COULD DO FOR YOUR HOME
The designs of the GRAND SELECTION product ranges have a great role model: natural wood flooring. It looks amazingly similar to this role model too.

There’s more though: the floors are also an extra special experience as they are haptically wonderful. We only use wood which has grown in sustainable Swiss forests for all our floorings. All of this promises top quality and durability.

Based on the solid, rustic floor of real wood, the 14mm Grand Selection ORIGIN resembles the original so close that even experts hardly can tell the difference.

**Innovative:** Looks and feels like a precious hard-wood floor – unrivalled in depth and precision of how the structure meets perfectly with the decor. Produced with the latest technology as well as the famous Swiss Quality awareness.

**Healthy:** Produced to strict European Standards. For a healthy living, emissions are the same as you would expect from wood in its natural state. GRAND SELECTION is made of 100% natural materials, mainly wood. This natural product, which according to a recent survey by the prestigious Fraunhofer Institut poses no risk to health.

**Ecological:** Made of wood from sustainably managed forests and whenever possible we look for the relevant FSC® certificates. Produced at the most modern, environmental friendly production facility of its kind.

**Resilient:** Superior abrasion (cl. AC5/33), scratch- and impact resistance as well as colourfast (anti-fade) and anti-static properties.

**Affordable:** Unbeatable price/performance ratio compared to traditional hard wood floors: You not only save initially when buying the floor but again later on in both money and time. It is a low maintenance and easy to care flooring. There is no need to wax, polish or sanding it, and it stays looking like the day you laid it for years and years.

GRAND SELECTION EVOLUTION and ORIGIN are water-resistant and are therefore suitable for every room, whether for nurseries, bathrooms, kitchens or commercial spaces.
Water resistant laminate flooring suitable for installation in moist areas.

The surface and core of all Kronoswiss Grand Selection Origin floors have been treated with Aquastop which gives the flooring a very high water resistance making it almost waterproof.

Oversize panels for visual highlights and quick installation.

Synchronised grain structure for an authentic real wood effect.

Additional layer for the best scratch and abrasion resistance. Superior AC5 scratch and impact resistance as well as colourfast (anti-fade) and anti-static properties.
AQUASTOP BENEFITS

- WATER RESISTANT with AQUA PEARL system
- NATURAL RESOURCES
- CHILD & PET FRIENDLY
- STEAM MOPPABLE
- WET MOPPABLE
- NALFA SURFACE SWELL TEST APPROVED FOR 24 H

- high density
Based on the solid, rustic floor of real wood, the 14 mm GRAND SELECTION ORIGIN resembles the original so close that even experts hardly can tell the difference.
CARE AND MAINTENANCE

GRAND SELECTION laminate floors are very easy to care for. They need neither special cleaning agents nor any other subsequent treatment. A vacuum cleaner or the occasional moist mop is perfectly adequate. This saves not only time and money, but also the use of chemicals in the household. Although laminate floors are highly resistant, they are not indestructible. The following simple precautions protect the laminate floor from scratches and other damage:

• Use cleanwalk zones and dirt absorbing mats in the entrance area
• Quickly remove all dirt, sand, grit, and other foreign bodies
• Fit furniture, and especially chairs with felt pads
• Immediately wipe up spilled liquids
• Use office chairs with soft casters or on protective mats

Regular cleaning
• Remove loose dust from the floor with a broom, or better with a duster
• Vacuum clean with a floor nozzle fitted with soft brushes
• When necessary, wipe occasionally with a well wrung, wet sprayed cloth, and dry afterwards. Clean water without additives is adequate.

Not suitable
• Polish, wax, oil, paint, etc. These cannot bond to the melamine surface and can give rise to undesired changes.
• Acids
• Abrasive cleaning agents, sponges, cloths, pads, etc.
• Sanding
WARRANTY

SWISS KRONO AG grants to purchasers of GRAND SELECTION laminate flooring, valid from date of purchase, an additional warranty on the abrasion resistance of the surface. This warranty is in accordance with provisions. Your normal statutory rights are not affected.
